

CALL FOR CONSULTANCY N°20/2022_SPA/RAC_SIDA Adriatic

**TERMS OF REFERENCE FOR THE PROVISION OF CONSULTANCY
SERVICES**

**“Consultant to undertake a data mapping exercise in the Adriatic for the
purpose of GES assessment”**

TECHNICAL SPECIFICATIONS

1. BACKGROUND

The Specially Protected Areas Regional Activity Centre (SPA/RAC) was created in 1985 and established in Tunis through a decision of the Contracting Parties to the Convention for the Protection of the Marine and Coastal Environment of the Mediterranean (Barcelona Convention). It intervenes within the framework of the Action Plan for the Mediterranean – Barcelona Convention (UN Environment/MAP). SPA/RAC's main mission is to assist the contracting Parties in implementing their obligations under Barcelona Convention Protocol on Specially Protected Areas and Biological Diversity with main aim to contribute to the protection, conservation, and sustainable management of Mediterranean coastal and marine areas of special cultural and natural value and of threatened and endangered species.

Based on the Regional Seas Indicator Monitoring Framework, UNEA resolution on conservation and sustainable management of peatlands ([UNEA 4/16](#)), as well as the [UN Decade on ecosystem restoration](#), the project, entitled "SIDA project in the Adriatic region", aiming towards integrated ecosystem assessment and ecosystems management approach in the Adriatic, has the objective to facilitate an overall quantitative assessment of IMAP Common Indicators (CIs) that correspond to UNEP Regional Seas Indicators and, to this aim, test integration tools/ assessment approaches in line with

- Decision IG.24/17 on the UNEP/MAP 2020-2021 Program of Work and Budget (Naples, Italy, 2-5 December 2019);
- Decision IG.22/7 on the Integrated Monitoring and Assessment Program of the Mediterranean Sea and Coast and Related Assessment Criteria (IMAP) (Athens, Greece, 9-12 February 2016);
- Decision IG.23/06 on the 2017 Mediterranean Quality Status Report (Tirana, Albania, 17-20 December 2017);
- Decision IG.24/7 on the Roadmap and Needs Assessment for the 2023 Mediterranean Quality Status Report (Naples, Italy, 2-5 December 2019);

The Nested Environmental Status Assessment Tool (NEAT), a structured, hierarchical tool developed for the marine status assessment, will be applied to the Adriatic sub region ecosystem to test its applicability for the good environmental status (GES) assessment. NEAT uses nested hierarchies of pre-defined spatial assessment units (SAU) and habitats within these units, combined with ecosystem components (such as fish, benthic fauna etc.) and associated indicators.

In view of supporting the integrated GES assessment in the Adriatic sub-region using NEAT, a data mapping exercise is required to inventory the available data sources for IMAP CIs related to Biodiversity, Coast & Hydrography and Pollution & Marine Litter clusters to be considered for the GES assessment.

2. OBJECTIVE AND SCOPE

The aim of this consultancy is to undertake a data mapping exercise to inventory the available data sources related to Biodiversity CIs in the Adriatic sub-region to be considered for the GES assessment and to map the collected data using Georeferenced Information System (GIS). In addition, the consultant will be required to collate data sets for the Good Environmental Status (GES) assessment relating to the Coast & Hydrography and Pollution & Marine Litter clusters in coordination with MEDPOL and PAP/RAC. The expert should also outline and chart the interrelationship of IMAP CIs and corresponding UNEP Regional Seas Indicators.

3. TASKS TO BE UNDERTAKEN

The consultant will be in charge of the following tasks:

- 1) Prepare a detailed work plan and timetable;

- 2) Collect available monitoring data for the biodiversity cluster Common indicators (CIs): CI 1, 2 ,3 ,4 ,5 for specie (marine mammals, marine birds and sea turtles) and CI 6 for Non-indigenous Species (NIS) to be considered for the GES assessment;
- 3) Map the collected Biodiversity data using GIS for further use in GES assessment using NEAT;
- 4) In consultations with MEDPOL, identify if there is a need for new data sets related to Pollution & marine litter to be explored and collated for the Nested Environmental Status Assessment Tool (NEAT) application in the Adriatic Sea Sub-region;
- 5) In consultation with PAP/RAC collate the available data related to coast and hydrography;
- 6) Map the interrelationship of IMAP CIs and corresponding UNEP Regional Seas Indicators;
- 7) Prepare a detailed report (in English) summarizing the outcomes of the data mapping exercise and a database of the collated quality-assured data sets.

		Planning unclearly presented, doesn't respect the deadline, or no planning or no time schedule or no chronogram of intervention	0 point	0 point

Any offer that has not attained the minimum score of 80 points will be eliminated.

In the event of no offer obtains 80 points or more, the call for consultancy process will be declared unsuccessful.

6.2. Financial evaluation

Once the technical evaluation has been completed, the financial offers of applicants that have not been eliminated during the technical evaluation will be examined.

The evaluation committee will check that the financial offers do not contain any obvious arithmetical errors. Any possible obvious arithmetical errors will be corrected, and the corrected figures will be taken into consideration.

The evaluation committee will then proceed to a financial comparison. The lowest financial offer that is judged acceptable will receive 100 points. The other offers will be attributed a score based on the following equation:

Financial score = (amount of the lowest accepted offer/amount of the offer in question) x 100

6.3. Conclusions of the evaluation committee

The choice of the best offer is achieved by weighting the technical and financial scores using a distribution key of 80/20 basis. To this end:

- The technical score will be multiplied by a coefficient of 0.80.
- The financial score will be multiplied by a coefficient of 0.20.

The weighted technical - financial scores thus calculated will be added to ascertain the offer with the best technical and financial score.

If two offers obtain the same weighted technical-financial scores, preference will be given to the applicant in the following order:

- having obtained the best technical score.
- having obtained the best score for methodology.
- having obtained the best total score for experience and qualifications of experts.

Note: The selection process may include interviews (through a teleconferencing platform), as well as a pre-selection phase followed by requests for complementary information / negotiation if required.

ARTICLE 7 - MONITORING, CONTROL AND VALIDATION OF THE WORK

The consultant will work under the supervision of SPA/RAC. The consultant will submit draft version of each deliverable. The consultant will submit the final version of deliverables as indicated in section 4 (Deliverables) and section 6 (Time schedule) of the technical specifications.

ARTICLE 8 - DEADLINE FOR THE EXECUTION OF THE MISSION

The time duration for carrying out the study of this contract is two (2) months as from the date of signature of the contract, including the deadlines for handing in the final documents and deliverables according to the following timeline:

Deliverables		Deadlines

Article 9 - Penalty

In the absence of completion by the consultant of the services at his/her charge within the contractual deadlines envisaged in section 7 of the technical specifications (Time schedule), and Article 8 (Deadline for the execution of the mission), it will be applied as of right and without notice, a penalty of one two hundredth (1/200) of the total amount of the contract (All Taxes Included - ATI) for each calendar day of delay.

The amount of the late penalties will be deducted from the accounts. The amount of the penalties is capped at 10% of the total amount of the contract in ATI. When this threshold is reached, SPA/RAC reserves the right to terminate the contract at the holder's fault, in accordance with Article 14 (Cancellation conditions) below, without that the holder cannot raise disputes or claim any compensation.

Article 10 - Intellectual property rights, ownership of document

All legal rights throughout the world in works or inventions created by the provider in connection with the consultancy shall be allowed to SPA/RAC. The provider recognizes that such rights include, but are not limited to, copyright and other rights in written material, sound and video recordings (including films), maps, photographs, etc. as well as patents and other rights in inventions, and that the said rights enable SPA/RAC to control and authorize, where appropriate all publications, publicity material and other exploitation of the said works and inventions.

All the plans, drawings, software, photos, videos, data, presentations, study reports and any other documents, elaborated and submitted by the provider to SPA/RAC for the execution of the contract, will become and remain the property of SPA/RAC, and the consultant will submit them to SPA/RAC.

The provider does not have the right to use or copy the products resulting from this consultancy, whatever their form or their media, without the explicit written non objection of the SPA/RAC."

Article 11 - Arbitrage, dispute settlement

Every dispute arising from or in connection with this contract execution shall be solved by way of amicable negotiations by the parties. The contract is deemed to have been made in Tunisia and to be subject to Tunisian law. In case of dispute, the Court of Tunis is competent.

Article 12 - Liability and insurance

SPA/RAC does not accept any liability for acts of third parties, accidents, sickness, losses of any kind, however caused arising during the implementation of the specific actions and the production of the relative outputs expected. The bidder confirms that themselves or any involved staff will be covered by appropriate insurance.

Article 13 - Force majeure

Force majeure means any event outside the control of a party so that it is impossible for one party to carry out his obligations or the implementation of these obligations becomes so difficult that it is considered to be impossible to carry them out under such circumstances.

The party which invokes force majeure must inform its co-contractor within seven (7) days of its occurrence so that the contractual deadline will be suspended with a joint agreement between the parties for the period which is covered by the case of force majeure.

SPA/RAC has a right to assess the circumstances of the impediments invoked by the holder as a case of force majeure to see if they are convincing, and if this should not be the case, then the days of discontinued work will be accounted for as days of delay.

Failure by either party to fulfil any of its contractual obligations does not entail a contract termination or failure to fulfil its contractual obligations if such a failure is due to a case of force majeure, if the party that finds itself in such a situation has done the following:

- a. has taken all the reasonable precautions and measures to allow it to comply with the terms and conditions of the contract; and
- b. has informed the other party of the event, as soon as possible. Any timeline given to a party for the execution of its contractual obligation will be prolonged by a period which is equal to the period during which that party

was prevented from fulfilling its obligations.

Any timeline given to a party for the execution of its contractual obligations will be prolonged by a period which is equal to the period during which that party was unable to fulfil its obligations due to the case of force majeure.

Article 14 - Cancellation conditions

SPA/RAC could cancel this contract through a notification in writing addressed to the tenderer after one of the events indicated in the following paragraphs:

- a. no respect of the deadline of the execution in application of Article 8 (Deadline for the execution of the mission);
- b. in the case described in the Article 9 (Penalty) when the amount is capped at 10% of the total amount of the contract;
- c. non-conformity to the content of the service listed in the technical specifications of the present consultancy (section 4 of the technical specifications: Tasks to be undertaken),
- d. If the tenderer goes bankrupt or into receivership.
- e. If, after a case of force majeure, the holder is unable to execute a substantial part of the Services for a period equal to at least sixty (60) days;
- f. If the tenderer was involved in corruption or fraudulent manipulations in order to obtain the contract or during the execution of the contract. For the purpose of the clause: a person is guilty of "corruption" if he/she offers, gives, solicits or accepts any kind of advantage in order to influence the action of a public official during the selection or the execution of the contract; and undertakes "fraudulent manipulations" which distort or denature the facts so as to influence the selection or the execution of the contract to the detriment of the borrower; by "fraudulent manipulations" is meant any agreement or collusive manipulation of the tenderers (before or after submitting the proposals) so as to artificially maintain the prices of the tenders at levels which do not correspond to prices which would have resulted from free and open competition and which deprive the borrower of the advantages of free and open competition; or
- g. If SPA/RAC, on its own initiative and for any reason whatsoever, decides to terminate the contract.

ARTICLE 15 – Conflict of interests

15.1- Prohibition of incompatible activities

The contract tenderer, the personnel and agents must not engage, directly or indirectly, during the contract implementation period, in professional or commercial activities which could be incompatible with the activities with which they have been entrusted due to the present contract.

15.2- Non-participation of the holder and his associates in certain activities

The tenderer and his associates are prohibited, during the contract duration and at the end of the contract period, to provide good, works or services means for any project stemming from the services or closely connected with the present contract services (except for the implementation of the present contract services and their continuation).

Article 16 - Provisional and final acceptance

The provisional acceptance is pronounced after complete completion of the services covered by this consultancy i.e., after the completion of the service described in section 2 tasks to be undertaken of the technical specifications, and Article 8 (Deadline for the execution of the mission). The provisional acceptance will be pronounced only in the case of complete conformity deemed conclusive by SPA/RAC and a provisional acceptance report issued by the SPA/RAC no later than 30 days from receipt of the deliverables and at the written request of the service provider and the signing of a report of completion of the work/services jointly by the service provider and SPA/RAC. The Service Provider shall, however, correct any deficiencies identified by the SPA/RAC upon completion of the various phases.

Final acceptance will be given one (1) month after the date of provisional acceptance without reservation of the contract. The final acceptance report will only be delivered once the service provider has fulfilled all his obligations resulting from sections 2 (Tasks to be undertaken) and section 4 (Deliverables) of the "Technical Specifications" and after corrections of all deficiencies signalled by SPA/RAC
